Jerico® 4-Speeds for Drag Racing

Circle, Check and Fill In Choices Below \$1000 Deposit Required

Jerico® DR4-4

#DR4-4

A206-Aircraft Quality Aluminum case standard. Caged needle thrust bearings at cluster faces and between gears to reduce drag. Larger caged bearing in input and larger mainshaft to prevent flex, maintain alignment and greater drive-line stability overall. Wider gearsets manufactured from premium VAR material and new 6-lug dogrings on 2nd, 3rd, and 4th for even smoother shifting. Operating temperatures lower due to a large reduction in friction as well. Comes standard with KT-O roller tailhousing, ALC A206-Aircraft Quality aluminum case, and billet bearing retainer.

Jerico® CL4-4

#CL4-4

Upshift only, this transmission requires a special Pro-Stock type clutch setup.

Make: Chevy Ford Mopar AMC Other: **Engine:** Big Blk. Small Blk. **CID:** **Weight:** **Class:**
